To whom this concerns:

Uber is a fantastic ride share program in which I frequently use. At times I also use the standard taxis, to disallow Uber and stifle competition is against the ideals of our nation. Allow business to compete with out government regulation and intervention. Allow for capitalism to prosper so that American ingenuity, growth and development continues.

Regards,

Nicole Rozinek

We have only had positive experiences with uber in and out of South Carolina. Within SC, we have found public transportation to be more reliable, more efficient, and more affordable. Please reconsider this motion.

I don't understand why a cease and desist order was issued for UBER.

Uber has set the standard for consumer safety in the Palmetto State. All uberX rides are insured up to \$1,000,000, which is 20x the \$50,000 required of taxis in the state, and all drivers on the uberX platform must pass background [checks](#) at the county, state, and federal level before they are able to drive on the Uber platform.

If there is something else I need to know that is not readily apparent, please tell me; but otherwise I think this is a great service and should be allowed to immediately continue what they do best!

I have used Uber many times in the past and only experienced great customer service, fair prices and a high standard of safety.

My two experiences with cab drivers were the worst experiences I had ever had. They were unprofessional, unsafe drivers, un-clean cars, and over priced.

I demand that the PSC work with Uber to ensure a permanent solution for ridesharing in this state.

Sincerely,
Cara M. Richter

First of all let me say that I have attempted to call taxis several times during my 17 years in Charleston. More than 50% of the time they either take more than an hour to arrive, or never arrive at all. It's not only disrespectful, and bad business; is also dangerous because usually I call a taxi cab for a safe ride home.

Uber has been an absolute blessing, I disagree with the union style tactics the taxicab drivers are trying to use to keep Uber out of the market. Taxicabs, their unions, and tokens have nothing to do with modern day society. Change the laws, do not blindly enforce them

Thanks,
Tad Fletcher
